The MigraVoice SuperPower Community and Digital Platform

Launch Webinar

Connecting Migrant Experts with European Media Practitioners for a More Inclusive European Media Landscape

The MigraVoice project is pleased to invite you to the launch of the MigraVoice Superpower Community—a cross-border community of experts with a migration background who provide their expertise to European media and journalists as reliable sources of knowledge across a wide range of disciplines, supported by a cutting edge digital platform.

- Are you a European media practitioner or outlet looking to increase the diversity of perspectives in your publications?
- Are you an expert in a topic or discipline and have a migration background wanting to share your knowledge?
- Are you an organisation engaged in promoting the inclusion and representation of migrants and refugees in Europe, especially in media spaces?

Confronting the dehumanisation and exclusion of migrant and refugee voices from mainstream European media narratives, MigraVoice promotes active participation of migrants and refugees in the creation of high-quality media content for European audiences by cultivating a cross-border community of experts with a migration background to participate as reliable sources in the media.

Join us for an online webinar event to celebrate the launch of this community, **exploring the new [MigraVoice Superpower Community and digital platform](#)** and **learning about how you can get involved.**

During the event, we will also **hear from collaborating experts and journalists** with a migration background, and you will have the chance to participate in **a live demonstration of the digital platform.**

Date: Wednesday, 18 September 2024

Time: 16:00 CET (1 hour)

Where: Zoom

RSVP: [Please register for the event](#) to receive the event link and further details.

what is
 **migra
voice**

MigraVoice is a project co-funded by the European Union. We aim to change narratives and improve representation by including migrant perspectives in European journalism and increasing the prestige of migrant expert voices on issues of general interest for European audiences.

Find out more about the project and community at the [MigraVoice Website here.](#)
